CSVT Update for Upcoming Week

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Winfield Interchange:

Route 15 northbound is reduced to a single lane so the contractor can reconstruct the center portion of the highway. Wide loads over 14 feet are prohibited. The single lane condition is expected to remain in place for most of the construction season. Blasting, excavation and embankment work will continue during daylight hours only.

Northumberland County:

Earthwork and drainage will continue. A small amount of blasting will be needed to complete remaining excavation. Route 147 traffic is using a temporary crossover to the new northbound bridge over Chillisquaque Creek. Construction continues on the bridge spanning Ridge Road and Wooded Run.

River Bridge:

Construction of Piers 1 through 8 and the bridge abutment will continue on the west side of the river. Piers 4 through 7 are complete. Concrete is scheduled to be placed for Pier 1, Pier 2, Pier 8 and the abutment, next week.

The placement of steel girders on river bridge span 6 will begin, weather permitting. Structural steel is expected to be delivered to the project. Minor delays on Route 15 near Winfield can be expected during daylight hours. Motorists should be alert and be prepared to stop.

The causeway in the river is being extended north for work on Pier 9.

Construction is ongoing on the abutment on the Northumberland side of the river. Concrete is scheduled to be placed for the abutment wall.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic

delay warnings, weather forecasts, traffic speed information and access to more than 850 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
