## **CSVT Update for Upcoming Week**

**Montoursville, PA** – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

### **Winfield Interchange:**

Route 15 northbound remains reduced to a single lane so the contractor can reconstruct the center portion of the highway. Work next week includes paving. There will be an increase in trucks delivering material for the paving operation. Motorists should be alert for construction vehicles entering and exiting the roadway.

Wide loads over 14 feet are prohibited. The single lane condition is expected to remain in place for most of the construction season. The southbound passing lane will be closed during the day for the northbound reconstruction work.

Drainage and earthwork operations will continue during daylight hours only.

### **Northumberland County:**

Route 147 traffic is using a temporary crossover to the new northbound bridge over Chillisquaque Creek. Work on the southbound bridge spanning Chillisquaque Creek and the bridge spanning Ridge Road is continuing.

The contractor will work on the retaining wall at Wooded Run and perform drainage work throughout the area.

### **River Bridge:**

Construction of Piers 1 through 8 and the bridge abutment will continue on the west side of the river. Piers 4 through 8 are complete. Concrete is scheduled to be placed for Pier 1 and the abutment wall next week.

Beam setting is complete for Span 5 and Span 6. Steel girders have been delivered for Span 7. Erection is expected to begin within the next several weeks.

Work on the Pier 9 footer is expected to continue next week.

Footer excavation supports are being constructed for Pier 13.

For more information on the CSVT project, please visit [www.csvt.com](http://www.csvt.com).

Motorists can check conditions on more than 40,000 roadway miles by visiting [www.511PA.com](http://www.511PA.com). 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 850 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
