CSVT Update for Upcoming Week

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Winfield Interchange:

Next week, Route 15 southbound will be restricted to a single lane during daylight hours so the contractor can work on the abutment for the permanent bridge spanning the highway. Traffic will be open to two lanes when the contractor is not working. These conditions will remain in place through the winter.

The contractor will haul fill over the temporary bridge spanning the highway.

Drainage work is ongoing.

There will be intermittent stoppages in both directions on Route 15 for blasting. Stoppages will last approximately five minutes for each blast.

Northumberland County:

The contractor will work on drainage, excavation and embankment work at various locations throughout the project.

Concrete will be placed at the new bridge over Chillisquaque Creek.

River Bridge:

Construction of Piers 1 through 8 continues on the west side of the river. Piers 4 and 5 are completed.

Piles have been driven for the abutment on the east side of the river. Construction of the abutment footer will begin next week.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 850 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
