## **CSVT Update for Upcoming Week** *Traffic Stops Expected During Night Work on Route 15*

**Montoursville, PA** – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

### **Winfield Interchange:**

On Sunday, the contractor will begin working at night to remove the temporary bridge spanning Route 15. This work will be performed nightly through the week from 9 PM to 6 AM and will require multiple traffic stops of up to 20 minutes in each direction. There will be delays. Motorists should consider alternate routes or plan more time for their travels.

Once the temporary bridge is removed the contractor will begin setting beams for the new bridge over Route 15. This will result in similar impacts to traffic.

Route 15 northbound remains reduced to a single lane so the contractor can complete reconstruction of the highway. Traffic has been shifted to the center lane of the highway. County Line Road east of Route 15 is closed. A detour is in place using Grangers Road and Line Road.

Wide loads over 14 feet are prohibited in the northbound direction. The single lane condition is expected to remain in place for most of the construction season. The southbound passing lane will be closed during the day for the northbound reconstruction work.

### **Northumberland County:**

Work on the southbound bridge spanning Chillisquaque Creek continues. Work at this location will result in increased construction activity on Hidden Paradise Road. Flaggers will provide traffic control as needed. Route 147 traffic is using a temporary crossover to the new northbound bridge over Chillisquaque Creek.

Beams have been set for the bridge spanning Ridge Road. The contractor is expected to begin constructing the deck. There will be flagging on Ridge Road when work is over the travel lanes.

### **River Bridge:**

Construction of the river bridge will continue next week.

For more information on the CSVT project, please visit [www.csvt.com](http://www.csvt.com).

Motorists can check conditions on more than 40,000 roadway miles by visiting [www.511PA.com](http://www.511PA.com). 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 860 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
