CSVT Update for Upcoming Week

Montoursville, PA – Work is progressing on the Northern Section of the Central Susquehanna Valley Transportation (CSVT) project in Northumberland, Union and Snyder counties as follows:

Two-way traffic conditions remain in place on Route 147 north of Ridge Road. Traffic is shifted to the southbound shoulder and travel lane while the northbound lane is reconstructed. The shift is expected to remain in place for at least another week. The contractor will be paving the northbound lane.

A temporary crossing will be built on Ridge Road so excavated material can be moved from one side of the road to the other.

Bridge work, excavation and embankment work continues in the area of the future Ridge Road Interchange.

Construction of the river bridge piers on the west side of the river continues.

On Wednesday, July 19, long-term lane restriction will go into effect on Route 15 south of Winfield near County Line Road. A 13-foot width restriction will be in place. The lane restrictions are needed to reconstruct sections of existing Route 15.

The contractor is installing erosion and sediment controls and performing earthwork and drainage work on either side of Route 15.

For more information on the CSVT project, please visit www.csvt.com.

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 770 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
